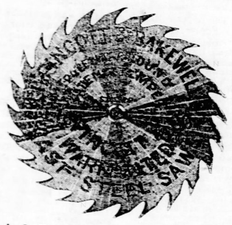
GET A GOOD SAW.



And Your Mill will do Good Work
Our Saws are Oil Tempered, Patent Ground, made to Run well.
If you will find each Saw of one Temper and Hard and Soft Spots in the same saw.
We accomplish this by our Patent Tempering Process, and you can not get this point of any other Saw Maker, as we own the Patents for the United States.
We do not claim to make a cheaper Saw than any one else, but one that will run at the word go, and will give no trouble, and will keep round longer; because being uniform with Temper, it will not wear on one side faster than the other.
We invite correspondence, or an interview with the practical man of your firm.
